George,
I am still with my mother, who is quite ill. I expect to be here through next week. I do have a limited internet connection at the hospital, so I finally did get your email about TRW. There is a TRW facility north of Powerex, but I know nothing about it. As for the 1993 OBG report on the Union Springs TRW site, I have not seen it nor do I have a copy. I would appreciate seeing a copy, and perhaps we can acquire it before the May 8 meeting in Troy.
I'm uncertain about the plume makeup at TRW Union Springs, but I thought that the TCE/DCE ratio was a bit high at contaminated sites (eg, the Village wells) relative to the Powerex plume, but I would defer to CDM about this, as they have the full data set (springs, Cayuga County home well data, RI data, Village well data). We do need to see the OBG report.
Call me on my cell when you have a chance. Before 2 pm would be best as I have to meet my sister at the Philly airport at 3.
Regards,
--Dave
